GENTLE YOGA This class provides a safe, effective, slow-paced gentle-flow yoga class geared towards those new to yoga or preferring a gentler yoga class experience. The primary focus of the class will be on achieving proper postural alignment, functional movement patterns, and learning various yoga breathing techniques. Seniors with movement limitations, or suffering from stiffness due to lack of activity, dealing with chronic disabilities and health conditions, stress or anxiety, or wanting to lose weight, will benefit from this gentle-style yoga class experience. Participants will be offered modifications and introduced to props to support proper alignment and ease in achieving the various postures introduced. A gentle yoga practice is a safe and effective way for seniors to maintain mental and physical health.

CHAIR YOGA Chair yoga is a gentle form of yoga that is practiced sitting on a chair, or standing using a chair for support. Seniors are introduced to modified yoga postures designed to be performed seated and/or with the aid of a chair and props. Chair yoga classes offer those with physical disabilities or mobility issues to find a safe and gentle yoga approach for maintaining and encouraging functional movement, improving overall physical strength and flexibility, as well as improving body awareness. Participants also benefit from breathing techniques that promote meditation, focus, mental clarity, stress reduction and relaxation.

CARDIOFIT This is a choreographed class that accommodates the three pillars of fitness: cardio, strength and flexibility. Start off with a cardiovascular workout that includes about a 20-30 min choreographed routine or circuits to improve cardiovascular health. Then, move into strength training using either hand weights or resistance bands to increase both bone density and balance. Abdominal exercises will be provided towards the end of the routine and be done while standing as mat work is not included in this program. Finally, a long lengthening stretch will complete the class to restore muscles and joints. If you enjoy music and movement, this is the class for you!

MIND BODY FUSION This class is a mixture of three mind body fitness practices including Yoga, Pilates and Tai Chi. Yoga postures will be used as the foundation of strength training in this program offering functional strength for everyday life. You don't need to go to the gym and pump iron to be strong, you can build foundational strength in this barefoot program using your body weight. Pilates will be used for leg and abdomen exercises to increase both length and strength in the core. Lower back and postural strength training that leads to increased balance will be a focus of this hour. Tai Chi is incorporated into the relaxation section of the class allowing a flow guided by breath. Use this program as an energizing relaxation that will increase your metabolism and lengthen your body.
